Flow Control Device:

Disk

Maximum Operating Temp:

250.00 degrees fahrenheit single response

Minimum Operating Temp:

28.00 degrees fahrenheit

Valve Operation Method:

Manual

Connection Type:

Butt weld pipe all ends

Valve Size:

0.500 inches

Face To Face Distance:

3.56 inches

Material:

Titanium stem

Media For Which Designed:

Water, salt single response

Style Designator:

Straight thru

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A046b0
