Flow Control Device:
Disk
Maximum Operating Temp:
250.00 degrees fahrenheit single response
Minimum Operating Temp:
28.00 degrees fahrenheit
Valve Operation Method:
Manual
Connection Type:
Butt weld pipe all ends
Valve Size:
0.500 inches
Face To Face Distance:
3.56 inches
Material:
Titanium stem
Media For Which Designed:
Water, salt single response
Style Designator:
Straight thru
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A046b0
