General Description:

Compressed air-hydraulic type; 350 lb, max lifting capacity; 100 psi, min air pressure required for capacity operation of lift; dimensional data, 45 in. Maximum w radiator accommodated, min w of radiator accommodated, a/a, 45 in. Lowest distance of carriage from floor, over-all height, a/a; not elec motor driven; no additional equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
