Special Features:

4, 2 cycle and rotary with 6, 12, 24, or 32 volt, conventional or electronic, 2, 3, 4, 5, 6, or 8 cylinder; compact, solid-state, non-dispersive infra-red exhaust analyzer with pwr sampling system to measure hc and co; ignition oscilloscope, 19 in. Diagonal crt, voltage scales with 3 hor. Scales for single cylinder dwell; meters, 5 8 in. Lighted meters; vacuum gage; tachometer; amp/dwell meter; volt/ohm meter; ppm hc meter; percentage co meter; tester controls color coded; power 115 volts ac 60 hz at 7 amps; circuit protection; shipping weight 200 lbs with cabinet 335 lbs; size 38 in. Length, 20 in. Dpth; 36 in. Hght; cabinet is 38 in. Lgth, 24 in. Dpth, 37 in. Hgh; accessories, hi tension ignition pliers, general motors hei adapter kit, resistance test connector, 18 in. Jumper head, solenoid starter switch, t vacuum fitting w/hose, two ford coil terminal adapters, 8 micron filter, 75 micron filter, std test leads, timing light and advance uni (tau-120) 25 ft hose

Shelf Life:

N/a
