Test Type For Which Designed:

Dynamometer, run-in

Operating Test Capability:

500 maximum bhp; 5000 maximum rpm

Special Features:

Max intake manifold vacuum recording; 220 degrees f, max temp reading; w/liquid-cooled heat exchanger

Specification Or Standard:

li type and b style and 2 class

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
