End Application:

Eara-tmde

Special Features:

Type of absorption, momentum exchange waterbrake; direction of rotation, right/left hand; torque transducer system hydraulic to 2000 lb./ft., 2712 nm; operating range, to 4000 rpm; speed system, magnetic pulse; standard equipment, adapter for sae flywheel housings 1/2-4, water inlet/outlet hoses w/fittings; construction, rotor and starter, ductile iron; shaft, heat treated high strength steel; seals, mechanical shaft seals and lis seals; bearings, oil bath lubricated roller bearings; wt, 250 lbs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
