Frame Length:

60.000 inches

Load Capacity:

1.0 metric tons

Hydraulic Lift Height:

Between 8.000 inches and 30.000 inches

Frame Maximum Height:

40.000 inches

Special Features:

Modified hein-warner model no. 62; modified to accommodate casters and floor locks; a common adapter interface is provided at the end of elevating/lowering mechanism

Functional Description:

Hused during installation or removal on lower fan stator case, the accessory gearbox and the lower fan duct when the f110-ge-129 engine is installed in the horizontal maintenance stand or the rail stand

Supplementary Features:

Gweight: 330 pounds; prime mover: hydraulic hand pump; rated capacity: 2, 000 pounds; equipement supplied: 1) built in tilt control; 2) hand pump; 3)selector and metering valve to control lowering rate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T273-j
