Major Components:

Mt3760 heavy duty avr tester and kr499pz roll stand

Accessory Controlling Agency:

55719

Electrical Power Source Relationship:

Operating

Test Type For Which Designed:

Ammeter voltmeter

Operating Test Capability:

Adjustable carbon load up to 500amp maximum at 12v; ammeter 0 +/- 1200adc; voltmeter 0 +/- 40.9vdc

Special Features:

Vavr tester: 1200 amp current range; fan cooled carbon pile; amp and volt lcd display; amp bar graph display; compact current probe; 15 second load indicator; roll stand: heavy duty two wheeled cart with two non-adjustable shelves

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
