End Application:

Gas engine vehicle maintenance

Product Name:

Microgas analyzer kit

Special Features:

5 gas analysis, hydrocarbon (hc) 0-30000 ppm; carbon monoxide(co) 0-15%; carbon dioxide(co2) 0-20%; oxygen(o2) 0-25%; oxides of nitrogen(nox) 0-5000 ppm---kit consists of microgas analyzer, external modem, hard copy printer, 25 foot exhaust sample tube with probe, modem cable, printer cable, power cable, wall adapter, power splitter, gas regulator, calibration gas, instruction manual, protective storage case

Functional Description:

Troubleshooting emission-related failures

Reference Data And Literature:

Commercial data

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
