**Overall Height:**

67.750 inches

**Overall Width:**

25.500 inches

**Wattage Rating:**

8.000 watts

**Voltage In Volts And Current Type:**

120.0 dc

**Special Features:**

Simplistic equipment positioning; reflective vehicle alignment; photosensor positioning of optical head; accurate/repeatable headlamp assessment; multi-bay usage; laser floor slope assessment; battery powered; intensity meter; alignment selection; track guidance; exceeds sae j600

**Color:**

Orange and black

**General Description:**

Rechargeable/replaceable battery; 60hz; laser: class 3a, 670nm, 5mw; weight: 140lbs; width: 26" x 25"

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A23900
