Overall Height:

67.750 inches

Overall Width:

25.500 inches

Wattage Rating:

8.000 watts

Voltage In Volts And Current Type:

120.0 dc

Special Features:

Simplistic equipment positioning; reflective vehicle alignment; photosensor positioning of optical head; accurate/repeatable headlamp assessment; multi-bay usage; laser floor slope assessment; battery powered; intensity meter; alignment selection; track guidance; exceeds sae j600

Color:

Orange and black

General Description:

Rechargeable/replaceable battery; 60hz; laser: class 3a, 670nm, 5mw; weight: 140lbs; width: 26" x 25"

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
