Containment System - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4910-01-480-7943

Special Features:

No

Effluent capture and containment system, hydrostatic resistance 600 psi, temperature -60 degrees f to 212 degrees f, dimensions 16 x 30, applications; aircraft wash water, engine cleaning and flushing, deicing operations, fueling and defueling, decontamination operations, ground support equipment, cleaning and maintenance and spill control: material tripolymer alloy

applications, all craft wash water, engine cleaning and husning, detering operations, rueling and detucing, decontamination operations,
ground support equipment, cleaning and maintenance and spill control; material tripolymer alloy
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
