**Overall Length:**

600.000 inches

**Overall Width:**

48.000 inches

**Product Name:**

Containment mat

**Special Features:**

600 psi hydrostatic resistance; minus 60 to 212 degrees f temperature ranges; tripolymer alloy material; 4 ft. X 50 ft dimension

**Functional Description:**

Used as a effluent capture and containment system for aircraft wash water, engine cleaning and flushing, deicing operations, fueling and defueling, decontamination operations, ground support equipment, cleaning and maintenance and spill control

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
