**Overall Length:**

420.000 inches

**Overall Width:**

192.000 inches

**Product Name:**

Containment mat

**Special Features:**

600 psi hydrostatic resistance; minus 60 to 212 degrees f temperature ranges; tripolymer alloy material; 16 ft. X 35 ft. Dimension

**Functional Description:**

Used as a effluent capture and containment system for aircraft wash water, engine cleaning and flushing, deicing operations, fueling and defueling, decontamination operations, ground support equipment, cleaning and maintenance and spill control

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
