Overall Length:

66.000 inches

Overall Height:

67.000 inches

Overall Width:

33.000 inches

Pressure Rating:

300.0 pounds per square inch

Voltage In Volts And Current Type:

115.0 ac

Product Name:

Gaurd, safety tire

Functional Description:

Tire inflation safety cage is used in conjunction with the automatic tire inflator to provide safe containment of the aircraft wheel during the tire inflating process to protect against personal injury or damage that could result from a tire rupture or wheel bolt failure

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
