End Application:

Tf-33 engine ratio bleed control bleed actuator

Special Features:

C/o 1 plate 3.250 in. L, 2.000 in. W, 0.500 in. Thk; and 1 locator 3.812 in. L, 1.250 in. Dia; fixture made of steel

Functional Description:

Used during housing assembly bearing replacement

Reference Data And Literature:

To 9p2-3-1-103

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
