**Overall Length:**

13.000 inches

**Overall Height:**

32.000 inches

**Overall Width:**

15.000 inches

**End Application:**

F-15 acft

**Design Type:**

Stand

**Special Features:**

Aluminum; 45 lbs

**Functional Description:**

Used to support wheel and prevent bearing can rotation during torquing of bearing can nut

**Reference Data And Literature:**

To 1f-15c-4-6 & serd 0515

**Supplementary Features:**

Company name-stand, maintenance, wheel assembly

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T361-a
