End Application:

F100-pw-100/200 aircraft engine

Nominalheight:

4.000 inches

Nominaldiameter:

4.000 inches

Special Features:

Company item name-base, main gearbox power take off shaft

Functional Description:

Used to seat bearing into housing

Reference Data And Literature:

Serd no. 0478

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
