End Application:

F-15 acft

Nominallength:

18.000 inches

Product Name:

Fixture, aileron actuator rigging

Nominalwidth:

18.000 inches

Nominalheight:

4.000 inches

Special Features:

Aluminum; company name-rigging fixture, aileron actuator

Functional Description:

Used to locate and engage the end cap bearing and piano hinge centerline and locates the actuator input lever at midstroke position

Unpackaged Unit Weight:

10.000 pounds

Reference Data And Literature:

Serd no. 0538 to 1f-15a-4-6

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
