**End Application:**

F-15 acft

**Nominallength:**

3.000 inches

**Product Name:**

Fixture, pilot input mechanism

**Nominalwidth:**

7.000 inches

**Nominalheight:**

8.000 inches

**Special Features:**

Steel

**Functional Description:**

Fixture is a micrometer head that is bolted on the outboard aileron actuator valve housing torsion tube mounting pad, providing a smooth and positively retained linear displacement of the valve input in discrete steps

**Reference Data And Literature:**

Serd no. 0558 to 1f-15a-4-6

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A505c0
