End Application:

Fmf-j79-8 engine

Special Features:

Nain: test stand, oil tank; c/o 2 gage, 2 air press regulator, 2 rotometer, 4 valve, needle, 2 valve, selector, 6 panel spud, 1 air motor, 1 oil filter, 4 check, valve, 1 air filter, 2 elbow, 1 reservoir, 1 breather, 2 door, 1 tank, 1 roof panel, 1 frame, 1 test chamber, 1 differential pressure gage, misc hardware; used to test and clean oil tank and components

Functional Description:

Used to clean and test the performance and operating characteristics of oil tank assemblies

Reference Data And Literature:

T.O. 33d4-6-301-1

Supplementary Features:

Company item name-oil tank, test and cleaning stand

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T361-d
