Overall Length:

4.167 feet

Overall Height:

4.000 feet

Overall Width:

4.167 feet

Assembly Form:

Rigid

End Application:

T-76-g series turboprop engines

Work Holding Device Position Adjustability:

Nonadjustable

Special Features:

Designed for model no. T76 engine

Reference Data And Literature:

To 2j-t76-4; navair 02b-25a-4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T361-c
