Overall Length:

56.000 inches

Overall Width:

18.250 inches

End Application:

C130a/d aircraft age.

Product Name:

Bladder assembly, element-sheath installation-propeller blade

Reference Data And Literature:

Drawing number 53h10086

General Description:

Used during element-sheath installation

Fsc Application Data:

Hydraulic propeller

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
