End Application:

F-15 acft

Unpackaged Unit Length:

6.000 inches

Special Features:

2.5 in. Dia

Functional Description:

Used to mount the cas lock piston assembly during component testing. Test block allows hydraulic pressure to be applied and monitored

Reference Data And Literature:

Serd no. 0835

Supplementary Features:

Company name-test block, control augmentation system lock

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
