End Application:

J79 jet engines

Tempurature Rating:

300.0 degrees fahrenheit

Wattage Rating:

1725.00 watts

Heating Element:

Included

Product Name:

Induction heating unit-spanner nut

Phase:

Single

Frequency In Hertz:

60.0

Functional Description:

To heat spanner nuts (max 300deg f) for assistance in removing nuts from bearing shaft

Reference Data And Literature:

Drawing number 1c5440

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T276-d
