End Application:

F4c aircraft age.

Product Name:

Torque test fixture

Nominalheight:

61.000 inches

Functional Description:

Testing steering torque output and rate of power unit assembly, nose wheel steering shimmy damper system, part number omp2202-6

Reference Data And Literature:

To 33a3-4-27-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
