End Application:
F4c aircraft age.
Product Name:
Torque test fixture
Nominalheight:
61.000 inches
Functional Description:
Testing steering torque output and rate of power unit assembly, nose wheel steering shimmy damper system, part number omp2202-6
Reference Data And Literature:
To 33a3-4-27-1
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A505c0
