**End Application:**

F4/c; f-15; f-16 aircraft horizontal tail/flaperon servoactuator assembly

**Nominal length:**

1.500 inches

**Nominal width:**

1.500 inches

**Nominal height:**

1.625 inches

**Special Features:**

Company item name-fixture, test, jet spray

**Functional Description:**

Used to adapt the emergency generator torque motor to a hydraulic source in a manner in which exposes a projector jet for observation of fluid flow patterns

**Unpackaged Unit Weight:**

1.000 pounds

**Reference Data And Literature:**

Serd no. 1378; to 9h2-4-238-3

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A505c0
