End Application:

F-15 acft

Nominallength:

5.500 inches

Nominaldiameter:

2.250 inches

Special Features:

Company name-preload assembly, adapeter; weight 1 lb. 10 oz

Functional Description:

Used to apply a preload to the rotating assembly of the ecs cooling turbine while clearance measurements are made

Unpackaged Unit Weight:

1.625 pounds

Reference Data And Literature:

Serd no. 0635

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
