Nominal length:

16.750 inches

Nominal width:

25.250 inches

Nominal height:

20.500 inches

Special Features:

115vac, 60hz, 1 phase

Functional Description:

Used with test fixtures kt426467 (tests bearing 207438) and kt426338 (tests type r2 ball bearings) for testing friction, separator wind up, and torque level

Unpackaged Unit Weight:

90.000 pounds

Reference Data And Literature:

To 33d3-4-118-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
