End Application:

4920-00-078-0470; an/apq-120 test station, radar, aircraft

Product Name:

Cooler, air

Functional Description:

Provides cooling air for maintenance on fire control radar systems

Reference Data And Literature:

Westinghouse electric corporation drawing number990c942 and t.O. 15h3-2-75-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
