Overall Length:

3.000 inches

Overall Height:

1.000 inches

Overall Width:

3.000 inches

End Application:

F-15 aircraft electrohydraulic servovalve 22253340 & 22253350

Test Item Connection Method:

Connector

Special Features:

Company name-adapter, servo test

Functional Description:

Used to provide a means to interface the electrohydraulic servovalves from the stabilator servocylinder and rudder servo-actuator whti the hydraulic test stand

Reference Data And Literature:

Serd no. 2039; to 9h8-30-116-3

Supplementary Features:

1.375 lb

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537k0
