End Application:

Aircraft central air data computer 2100756-3-1; a7d aircraft

Product Name:

Static and differential pressure sensor calibrator

Functional Description:

Used to apply controlled pressure, static pressure, and controlled electrical energy to a sensor

Reference Data And Literature:

To 5f5-4-26-4; 33d7-16-11-2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
