Overall Length:

16.250 inches

Overall Height:

8.750 inches

Overall Width:

19.000 inches

End Application:

4920-00-701-6129

Wattage Rating:

34.500 watts

Voltage In Volts And Current Type:

115.0 ac

Product Name:

Counter

Functional Description:

Remotely programmed all solid state electronic counter specifically designed for digital measurement of frequency and time interval. Rack mounted unit for installation in the front panel of t170 test set

Reference Data And Literature:

T.O. 33a1-10-191-1

Relationship To Similar Equipment:

Physically and functionally interchangeable with the avtron d653t170 counter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
