Assembly Form:

Knocked-down

End Application:

R-2000-4 & -7m2 aircraft engines

Work Holding Device Position Adjustability:

Adjustable

Product Name:

Stand

Functional Classification:

Gg-7.2

Functional Description:

Used during engine installation and maintenance of supercharger case and valve clearance

Reference Data And Literature:

To 2r-r2000-23

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T361-c
