End Application:

F-15 acft

Unpackaged Unit Length:

9.000 inches

Special Features:

Stainless steel

Functional Description:

Used during testing of the modulating valve to connect the unit to the facility test system for modulation and leakage checks while measuring temperatures and pressures

Reference Data And Literature:

Serd no. 1067

Supplementary Features:

Company item name-adapter, leakage valve

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23800
