End Application:

F-15 aircraft nose wheel steering shimmy damper

Nominal length:

4.000 inches

Nominal width:

4.000 inches

Nominal height:

4.000 inches

Special Features:

Nickel plate steel; company name-pressing tool-bushing, input cover

Functional Description:

Used to provide a means of holding/installing a press fit bushing into the input housing assembly, and of supporting the housing during this operation

Unpackaged Unit Weight:

5.000 pounds

Reference Data And Literature:

Serd no. 1075; to 9h2-3-83-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
