**End Application:**

F-15 acft

**Unpackaged Unit Length:**

8.000 inches

**Special Features:**

1.500 in. Dia

**Functional Description:**

Used to allow simulation of the aircraft hydraulic plumbing during testing of the 68-690051-101 stabilator servocylinder (one fitting for each port)

**Reference Data And Literature:**

Serd no. 1092

**Supplementary Features:**

Company item name-fitting set orifice-line loss

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A23800
