**End Application:**

F-15 acft

**Nominallength:**

4.000 inches

**Nominaldiameter:**

4.000 inches

**Special Features:**

Steel; company item name-driver plug, bearing and bushing-stabilator

**Functional Description:**

Used to press a bearing into the summing lever, feedback fitting and detent rod on the 68-690051-101 stabilator servocylinder

**Unpackaged Unit Weight:**

4.000 pounds

**Reference Data And Literature:**

Serd no. 1082

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
