End Application:

Aircraft electromechanical linear actuator 541010-3-1

Special Features:

To name: stroke and drill fixture

Functional Description:

Used to hold actuator in extended position for drilling hole for pinning jackscrew and torque bar and for setting extended and retracted positions of jackscrew

Reference Data And Literature:

To 5a15-9-4-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
