End Application:

F-15 acft

Nominallength:

1.000 inches

Nominaldiameter:

0.625 inches

Special Features:

Steel; company name-adapter (balance)

Functional Description:

Used to hold the rotor assembly in a balancing cradle during dynamic balancing of the ahrs directional gyro rotor assembly

Reference Data And Literature:

Serd no. 1191

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
