**End Application:**

F100-pw-100 engines

**Special Features:**

440.0 vac, 60.0 hz, 3-phase; 120.0, 60.0hz, single phase; designed for use in hazardous test area

**Functional Description:**

Performs post overhaul performance tests on augmentor fuel pump controllers

**Reference Data And Literature:**

T.O. 33d4-6-494-1

**Supplementary Features:**

Company item name-turbo-jet engine fuel components test stand

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23800
