Nominal length:

4.000 inches

Nominal width:

4.000 inches

Nominal height:

2.500 inches

Special Features:

Steel; company name-holding fixture, variable wobbler, hydraulic unit, constant speed drive

Functional Description:

Used to hold the constant speed drive hydraulic unit variable wobbler during insertion of the 1/8 in. Variable wobbler trunnion pin

Unpackaged Unit Weight:

4.000 pounds

Reference Data And Literature:

Serd no. 1230; to 9h6-3-36-4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
