Overall Length:

20.310 inches

Overall Height:

15.100 inches

Overall Width:

13.500 inches

Major Components:

Dummy magazine1, extender module1, cable assemblies5

Component Quantity:

7

Special Features:

Requested name-data recording camera test set ls-61a

Functional Description:

Used for the following tests; camera set, exposure frequency control, periscope, and camera

Entry Date:

70-04-01

Reference Data And Literature:

T.O. 33d10-2-15-1

Supplementary Features:

Test set also supplies the ac and dc voltages necessary to operate the data recording camera set ks-74a

Type/model Designation:

Ls-61a

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T01200
