Electronic Systems Test Set - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4920-00-230-6872

End Application:
Aircraft instruments
Special Features:
Test set computer cycling
Functional Description:
Provides varying pilot and static pressure source to cycle the cpu-46/a altitude encoding computer and fault isolation in the event of
malfunction; 22.0 in lg; 20.0 in w; 15.0 in h
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
