**End Application:**

Tf-39 aircraft engine

**Special Features:**

C/o gasket, pliers, compression springs, and retaining ring

**Functional Description:**

Used during compressor stator vane tip grinding

**Reference Data And Literature:**

T.O. 2j-tf39-4

**Supplementary Features:**

Company item name-retainer set

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23800
