End Application:

Tf-39 aircraft engine

Special Features:

C/o gasket, pliers, compression springs, and retaining ring

Functional Description:

Used during compressor stator vane tip grinding

Reference Data And Literature:

T.O. 2j-tf39-4

Supplementary Features:

Company item name-retainer set

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
