Portability Method:

Hinged external handles

End Application:

A-4, a-6, a-7, a-10, f-4 acft

Unpackaged Unit Length:

18.000 inches

Unpackaged Unit Width:

11.625 inches

Unpackaged Unit Height:

20.125 inches

Container Type:

Case

Cubic Measure:

4211.156 cubic inches

Product Name:

Weapons release test set

Special Features:

20 cable assemblies are used to connect the test set to a power source, or between the weapon release system outputs and the test set; the control panel contains all controls, indicators, switches and connectors

Functional Description:

The test set tests the weapon release system including the multiple ejection racks (mer), triple ejection racks (ter), and parent racks in either a flightline or shop environment

Reference Data And Literature:

T.O.33d5-12-207-1

Supplementary Features:

When the test set is being operated at the aircraft, 115v, 400hz or 28vdc power, as applicable is supplied by the aircraft; when the test set is being used in the shop, power is obtained from either the shop 28vdc power supply or by the power supply in the test set; the power supply regulates and rectifies 115 vac, 60 or 400hz to obtain the 28vdc

Unit Of Issue Weight:

90.00 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A23800
