Overall Length:

12.000 inches

Overall Height:

9.000 inches

Overall Width:

10.000 inches

End Application:

F-15 acft

Test Item Connection Method:

Connector

Special Features:

Company name-test package, digital modules

Functional Description:

Used to provide a mechanical interface between the module or subassembly under test and the digital logic module test station

Reference Data And Literature:

Serd 1326

Fsc Application Data:

4920-00-106-5336

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537k0
