End Application:

F-15 acft

Unpackaged Unit Length:

8.000 inches

Special Features:

4.000 in. Dia

Functional Description:

Used during testing and calibration of the temperature sensor component of the air conditioning system

Unpackaged Unit Weight:

5.000 pounds

Reference Data And Literature:

Serd no. 1449

Supplementary Features:

Company name-adapter, temperature sensor test; stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
